Core Competencies to Support the US Government

SydanTech supports the US Government in their mission to maintain the confidentiality, integrity, and availability of critical life and limb functions across numerous agencies for the life, safety, and welfare of the American public, our allies, and partners across the globe. We have been providing support to the US Government since 2001 in a variety of areas

SydanTech provides comprehensive program, security, operational, service desk, and IT support:

- Service Desk via our ITIL and ISO 20000 quality model
- Operations and Management
- Risk Management / Penetration Testing / Security
- Program Management
- COOP / DR / Asset Management / Spare Supply Chain
- Software Development, AGILE, Cloud, DME

We have supported numerous relevant engagements:

- NOAA OCIO Security for SOC, NOC, WOC, AD
- NOAA OMAO Hurricane Hunter Security
- NOAA ITC Security and Operations
- USDA Application DME, Cloud, O&M
- DoD DSS Security, Operations, Service Desk
- US Coast Guard Engineering / O&M
- Dept. of Interior Risk Management and Security

Differentiators

SydanTech is a highly experienced prime contractor, also supporting numerous government agencies including NOAA, US Air Force, Census Bureau, DSS, Environmental Protection Agency, US Department of Interior, US Department of Agriculture, US Fish and Wildlife Service, and other agencies

We provide many advantages to our customers:

- ISO 9001, ISO 20000, ISO 27001, CMMI 3 Certified
- DoD DSS TS Cleared Facility
- Experienced and certified personnel
